Re: 2010 Sewer Rehabilitation Project

With the high water of the last several years Grand Lake Public Works Authority (GLPWA) has had significant infiltration causing us to treat lake water and rain water. This additional volume from nonusers is wasting capacity at the sewer plant and is increasing expenses in the form of electricity, manpower and pump maintenance.

GLPWA has applied for and received a loan/grant to repair/replace sewer mains and manholes with the intention of reducing infiltration.

GLPWA will start this project immediately with plans on completion in August 2010.

GLPWA will be working in the following areas:

Area	Work	Estimated Start	Completed
Newport Village	Replace all lines and MHs below 757' Clean & Seal Lift Stations	1 <sup>ST</sup> 3/08/10	5-14-10
Silver Key	Replace all lines and MH's Clean & Seal Lift Station	2 <sup>ND</sup> 4/26/10	5-21-10
